## *Leila and Hendrix's Bio*

*Leila and Hendrix were born in 2008. These two Yorkshire Terriers are inseparable. Hendrix is a playful, loyal companion who enjoys going for walks and playing with his toys. Hendrix believes he is a mix between a Cocker Spaniel (since he loves the water) and a cat (as he lazily lounges on the back of the chesterfield).*

*Leila is very protective and enjoys eating and barking at the neighbour's dog. She is very stubborn and independent but loves to have her belly rubbed. Leila, in her own female fashion, is happiest when she is clean and smelling good.*

*We have come to believe that even a king-sized bed is not big enough for four. Leila and Hendrix always bring smiles to our faces and a great deal of pleasure.*
