

Opal

Shih-Tzu

DOB: 2005

Puppy Love Client Since 2008

Opal joined our family in June, 2009. She was the most pitiful thing you could imagine when we first saw her at the Brooks Animal Shelter. She was found roaming the streets of Brooks the week there were torrential rain and thunder storms for more than a week. She had not been groomed in a very long time, and she had just had a litter of puppies; not her first. She had a hernia the size of a golf ball, and if she had any more litters that would have killed her, the vet told us. It was suspected that she came from a puppy mill. Once she was healed from her 2 surgeries we were able to take her home, and we have been Blessed to watch her change into the dog she is today. She is now cuddly, definitely a Mommy suck, loves her daily walks and likes to play with her toys by herself. She is an Alpha female and is never afraid to assert her bossiness to the biggest of dogs; and they listen to her.

**We are happy that Opal
(OeO, Opal Dopal, Opie Dokie)
is a part of our family!**
